City Commission of Springfield, Ohio

The pastors who have signed this letter would ask the City Commission to not adopt the discrimination policy that is now in committee that expands the city's discrimination policy to protect those of any "sexual orientation."

We believe the city's current policy is more than adequate for protection of all citizens against discrimination. We also want to affirm that this "pending change" is not state or national policy and that there have been no cases of discrimination because of "sexual orientation" known in Springfield, Ohio.

Grant Edwards, Senior Pastor
